

To,  
Dr. Manashi Bagchi,  
University of Houston College of Pharmacy,  
United States.

Dear Dr. Manashi Bagchi,

I came across your paper "Vmp35 Mnc a Novel Iron-Free Supplement Enhances Cytoprotection against Anemia in Human Subjects A Novel Hypothesis" and felt that your work is distinctive for this research domain. This research may indeed prove to be significant to fellow researchers and scientists working in the same discipline.

Taking note of your research interests which matches with our journal domain, may I know more about your current research work? Like we can also develop a network of eminent researcher of your stream worldwide.

As your research work comes under the scope of our journals, I cordially invite you to send your future research articles/papers for publication to Global Journal of Medical Research, DOI: 10.17406/GJMRA. It is an international, refereed, peer-reviewed, indexed and print journal. We are publishing various journals covering most of the disciplines of computer science, engineering, medical and management matters, natural science and human science since more than a decade for thousands of universities and authors from 153 countries.

You might already know that Global Journals Incorporated/Pvt. Ltd. is USA- and UK-based, and internationally established ISO certified group. Journal's homepages are at <https://globaljournals.org/journals/medical-research/l-nutrition> and <https://medicalresearchjournal.org>

GJMR itself comprises of several specialty journals like neurology, pharma, microbiology, radiology, gynecology, diseases, veterinary, orthopedic, surgery, dentist, **nutrition**, Interdisciplinary etc. I await your favorable response at the earliest to book review slot in upcoming issue of 15th of the coming month.

Regards,

**Dr. Jixin Zhong**
